WORK HISTORY

Business Development Intern

Obensye Distribution India LLP

June 2025 – August 2025 (8 Weeks)

- Conducted customer churn and ROI analysis, identifying key drivers of customer retention and profitability
- Developed Excel-based dashboards for demand forecasting and operational planning
- Collaborated across finance, marketing, HR, and operations teams

PROJECTS

Completed project works:

Emic Analysis for DM & Müller Stores

- Conducted field study across 2 major retail chains, analyzing product placements and pricing patterns
- Evaluated consumer behavior across 3 store visits per location, focusing on visual merchandising impact
- Identified key drivers of brand loyalty, including affordability, shelf positioning, and brand storytelling

Smart Services in HRM (Literature-Based Project)

- Reviewed 20+ academic and industry sources on digital HR transformation and automation trends
- Analyzed 5 major HR challenges including talent retention, process inefficiencies, and digital adaptation
- Proposed data-driven HR solutions improving workflow efficiency and decision-making frameworks

DM Case Analysis – Natural Cosmetics Market

- Conducted comparative study of 3 competing brands in natural cosmetics segment
- Analyzed ingredient composition and pricing across products to assess value positioning
- Identified 2 primary decline drivers: pricing mismatch and shifting consumer preference toward affordability

Business Game: Negotiation & Procurement (International Simulation)

- Participated in a 12-week procurement simulation involving cross-border vendor negotiations
- Developed and submitted multiple RFQs aligned with budget constraints and operational needs
- Applied negotiation strategies to achieve cost-effective procurement outcomes within defined constraints

Ethical Leadership & Corporate Governance

- Conducted analysis using 20+ literature reviews and theoretical frameworks
- Evaluated impact of leadership ethics on organizational transparency and governance outcomes
- Developed insights linking ethical leadership to long-term corporate sustainability

Social Media Influencer Impact Study (Empirical Project)

- Collected and analyzed primary data from Gen Z respondents (sample-based study)
- Assessed behavioral impact of influencer exposure on fitness perception and social comparison
- Identified statistically relevant trends in consumer self-image and digital influence patterns
